PROFESSIONAL SUMMARY

Angular Front-End Developer with 1.5+ years building data-driven SPAs for B2B SaaS platforms. Delivered a Tableau-to-Angular migration cutting load time from 30s to under 3s and eliminating 1-hour refresh delays across a live CMMS platform serving 10,000+ assets across 11 properties.

WORK EXPERIENCE

Synccit Solutions Pvt. Ltd. Mumbai, India
Junior Angular Developer Jun 2025 – Present

Metaagrow – Cloud-Based O&M / CMMS Platform | Angular · TypeScript · RxJS · ApexCharts · REST APIs

- **Design system leadership:** Led a comprehensive UI/UX design audit, producing a 29-section design system covering typography, a three-tier color/token architecture, and component standards — adopted platform-wide across the Metaagrow dashboard.
- **10x performance improvement:** Replaced Tableau with a custom Angular reporting system — load time from ~30s to under 3s, eliminated 1-hour refresh delays, delivering real-time KPI visibility across 6 standalone modules.
- **6 feature modules owned end-to-end:** Built Assets, Inspections, Preventive Maintenance, Parts Inventory, Tickets, and Survey using component-based architecture, lazy loading, and Angular services — 10,000+ assets across 11 international properties.
- **Customizable dashboard layout system:** Built drag-and-drop widget reordering and show/hide functionality using Angular CDK, with per-user persistence via a custom WidgetLayoutService — live across the entire dashboard, spanning all modules (Overview, Asset, Parts, Tickets).
- **Reusable component library:** Engineered dynamic Angular components with TypeScript interfaces, Input/Output decorators, and EventEmitter patterns enabling dropdown-driven KPI switching across all modules.
- **PDF export & API integration:** Built multi-page PDF export via jsPDF/html2canvas and DashboardPdfService; integrated parallel REST APIs using RxJS forkJoin and takeUntil for clean subscription lifecycle management.

Passtimme – Fintech-Enabled Leisure Marketplace | Angular Reactive Forms · Google Maps API · MongoDB

- **Geo-aware search & onboarding:** Built real-time location-based venue discovery (Google Maps API, radius/city/category filters) for 1,000+ listings; delivered multi-step vendor onboarding with Reactive Forms, route guards, and MongoDB-backed REST APIs.

Reeble Mumbai, India
Junior Software Developer Jul 2024 – Jan 2025

ControlFlow – Multi-Client Admin Panel | Spring Boot · Thymeleaf · REST API · MySQL

- **Backend & UI development:** Built server-side rendered admin views using Spring Boot and Thymeleaf; consolidated 5+ client accounts into a unified dashboard with real-time data updates, reducing admin task overhead by ~40%.
- **Reusable component library:** Designed shared Thymeleaf fragments for client detail views, edit workflows, and bulk data management — adopted platform-wide, significantly cutting per-feature UI development time.
